

Civil Supervisor

Ertech Pty Ltd is a privately owned civil contracting company that has built a proud record over its twenty nine years in business as an employer providing excellent growth opportunities and rewards in a positive, team oriented and safety focused environment.

With over 550 employees, an impressive client list covering the resources, infrastructure and land development sectors and an enviable safety track record we strive to be Australia's best civil construction company and deliver our projects right and on time.

Responsible to: Project Manager

Position Summary

This newly created position is the result of the sustained expansion of our field operations. Reporting to the Project Manager, your role would include full responsibility for the supervising and coordinating of all construction work onsite, ensuring the effective utilisation of plant and personnel in completing the project within time, safety and cost restraints.

Position Description

Responsibilities will include, but are not limited to:

- Supervising packages of work on time and on budget
- Planning, scheduling and monitoring work packages
- Stakeholder management
- Allocating project resources to maximise outcomes
- Meeting and/or exceeding lead HSEC indicator targets
- Adhering to Ertech's environmentally responsible work practices and safety standards

To be successful in this position your background will include:

- Certificate IV in Frontline Management
- Certificate IV in Training and Assessing
- Demonstrated experience in:
 - Civil Infrastructure
 - Road Construction
 - Subdivisions / Land Development
 - Bulk Earthworks
 - Drainage / Pipe work
- Demonstrated record of making a difference in a similar role
- A willingness to get your hands dirty
