

Catchment Lake at Worsley Alumina

Construction - Greenfields Infrastructure

Project

Catchment Lake at Worsley Alumina

Client/EPCM

Worsley Alumina Pty Ltd

Value

\$13,408,456

Description

The contract involved the excavation and removal of 2,000,000m³ of material to spoil to increase the capacity of the plant's water catchment lake.

In addition, a tailings dam lift involving the placement and compaction of 65,000m³ of engineered fill was completed.

The works were completed over 2 summer periods. The onsite project team consisted of a Project Manager, 2 Supervisors, a Safety Advisor and a Surveyor. The average workforce numbered 40.

Location

Worsley Alumina is located in Collie, Western Australia.
